### Advantages and Benefits

- ✓ Ease of Use
- ✓ Reduce Costs
- ✓ Time Reduction
- ✓ Standardization Code
- ✓ Documentation
- ✓ Automated testing
- ✓ Full Customization

### AUTOMATIC CODE GENERATOR

**izCode** is *izCompany* tool designed to simplify, improve, enhance and increase the production of commercial software. With **izCode** your company can maintain focus on what matters most to you, your business.

### WHAT IS GENERATED

Unlike competitors, the **izCode** generates all layers of an application, delivering a ready software, dramatically reducing the cost of production. The generated code is fully functional, readable, and easily adapts to your additional needs.

- ✓ Data Access Layer
- ✓ Business Layer
- ✓ Presenters
- ✓ WCF Layer
- ✓ Internet/Intranet Pages and Sites
- ✓ Windows Forms
- ✓ Windows Mobile
- ✓ Stored Procedures
- ✓ Views
- ✓ Triggers
- ✓ Documentation

### PROJECT WITHIN 10 MINUTES!

With **izCode**, creating and maintaining software projects has never been so easy. All you need is download the software, and import your data model of any **DBMS**, choose a project type to be generated, C #/WEB for example, and press a button.

### TIME REDUCTION

Supported in **izCode**, your I.T. staff can produce a new software in **weeks**, and instead of months. This will fundamentally change the relationship of I.T. with other areas of the organization.

The software projects will be done on time and with high quality standard.

## REDUCTION OF COSTS AND TIME, INCREASE PRODUCTIVE , DECREASE BUGS

### Initial Development

And with the reduction of time, you also reduce production costs and software maintenance. We estimate that a project of six months, about 50 tables, can be delivered in just one month with the support of *izCode*.

### Standardization in the production process

Instead of each member of your team to produce a code in his particular way, which in the long term

leads to **CHAOS**. You will have the same coding standard, documentation and comments throughout all the software.

### Maintenance

The code generated by *izCode* is easy to maintain because it uses international standards of development, or patterns. Code readable, well structured and standardized, that is what the *izCode* offers to you.

## BUSINESS FOCUS

Focus only on what is most important to your company, your business. Let *izCode* help you. Since the generated code, your systems analyst can be concerned only with the rules and peculiarities of your business.

## INDUSTRY STANDARDS

With *izCode*, you can simply choose a standard that you want to use, and your program will be delivered in this standard. You need Java, .Net, MVC, MVP or RUP? Choose the language, the method and form, *izCode* will create up to **90% of you project**, ready on desired technology.

## SMALL I.T. REQUIREMENTS

With so many facilities, your requirements to hiring an I.T. professional will decrease, **decreasing long-term costs**, and will be easy to find junior professionals that meet your expectation.

## AUTOMATIC DOCUMENTATION

With the *izCode*, all documentation of your system will be ready along with the code, **in minutes** rather than weeks or months. You will have everything in DOCX or PDF file with your code.

## SAFE DATA KEPT

*izCode* is compatible with all major DBMS on market. And you help you to create:

- ✓ *Stored Procedures*
- ✓ *Audit Triggers*
- ✓ *Views*

## CUSTOMIZED TO YOUR BUSINESS

The *izCode* is adaptable to your business, and its development model. With a small adjustment we can make the *izCode* generating software on the same pattern that you already use in your business.
